- Tagalog

SKILLS

- WordPress Development
- Plugin & Theme Customization
- PHP, Laravel
- JavaScript, Vue.js, React
- NativeScript, React Native
- SEO best practices
- Stripe, Asaas/PIX, WooCommerce payment gateways

PROFILE

Web developer with 7 years of experience building and customizing Wordpress plugins and themes, focused on WooCommerce payment integrations and site performance. I also bring full-stack experience with Laravel and Vue.js, letting me build custom solutions beyond WordPress's native capabilities when a project calls for it.

Remote, Philippines (UK/US overlap hours available)

EDUCATION HISTORY

Bachelor's degree, Information Technology, 2015 – 2019

STI College Cotabato

WORK EXPERIENCE

Freelance Full-Stack Developer, Remote, Feb 2026 – Mar 2026 (Part-time)

- Built a custom WooCommerce payment gateway integrating Asaas (PIX, boleto, cards) for a Brazilian client, handling refunds and withdrawals.
- Designed marketplace payout architecture to split payments and pay out vendors automatically.

WordPress Developer, AWTG Ltd., Aug 2024 – Present (Contract)

- Integrated Nordic eSIM for tourists on the WordPress site.
- Stripe payment implementation for eSIM purchases making use of WooCommerce plugin and usage of Webhooks.
- Cut page load time from 10s to 2s by implementing caching and an automatic image optimization script on upload.

INTERESTS

Loves to attend tech related conventions / gatherings.

Video games on my free time.

- Implemented Superset BI tool to display water level & Air quality sensor readings from Loriot provider using Python.

WordPress Developer, CAMP Digital, Feb 2024 – Present (Full-time)

- Audited site performance with Screaming Frog and acted on the findings.
- Managed content and sites across a WordPress Multisite network on WP Engine.

WordPress / Full Stack Developer, Codevwork, Oct 2023 – Feb 2024

- Laravel Livewire / Vue.js stack.
- Developed custom DIVI modules displaying images and note entries.
- Developed custom ACF modules displaying lazy loaded entries.

WordPress / Full Stack Developer, Infosoft, Nov 2019 – Oct 2023

- Deployed mobile app using NativeScript for tourism site in Google Play with 12,000 downloads.
- Built Web App for a Kiosk machine for visitors at 5 locations to scan QR using Vue 3.
- Developed ACF modules to display custom PDF upload entries.
- WordPress Theme customization.

WORDPRESS PLUGIN

Eclairman's User Login Blocker

https://wordpress.org/plugins/eclairman-user-login-blocker/

Eclairman's User Login Blocker lets an administrator prevent chosen user accounts from logging in, while everyone else logs in normally.
